SECTION 1.0 REQUIREMENTS AND PREREQUISITES

1.1 Introduction

This manual provides instruction on how to use the Electronic Case Filing System (“ECF”). ECF allows users to electronically file court documents, view official docket sheets and documents, and query various case reports via the Internet. This system is to be used in conjunction with the naming, format conventions, and procedures set out in the Federal Rules of Civil Procedure, Local Rules, and ECF Policies and Procedures for the United States District Court for the Eastern District of Wisconsin.

1.2 User Experience

- (a) ECF participants should have a working knowledge of Windows 95 or higher, including:
 - Opening and closing programs
 - Moving, minimizing and maximizing windows
 - Operating menus, text fields, drop down list boxes, scroll bars and other Windows objects using the keyboard and mouse
 - Switching between programs using a mouse and a keyboard
 - Understanding files and directories and file system hierarchy
 - Selecting multiple items from a list
- (b) ECF participants should have a working knowledge of the use of an Internet browser and should know how to:
 - Locate and browse a specific web address by typing the address in the location field
 - Create and use bookmarks and favorites
 - Identify and operate hypertext links
 - Print from a web browser
- (c) ECF participants should know how to use word processing software.
- (d) ECF participants should be familiar with Adobe Acrobat document conversion protocols.

1.3 Hardware Requirements

- (a) A personal computer running a standard platform such as Windows or Macintosh.
- (b) A scanner to transmit documents not in a word processing system.

1.4 Software Requirements

- (a) ECF users must check the login screen for a current list of acceptable browsers. ECF is tested to work correctly in Firefox and Internet Explorer.
- (b) Internet access supporting a transfer rate of 28.8kbs or higher.
- (c) Word processing software such as Corel WordPerfect or Microsoft Word.
- (d) Software to convert the documents into a portable document format (PDF).
- (e) PACER account to access ECF.

1.5 Registration

Registration is required for participation in ECF. Registration forms are available on the court's website: www.wied.uscourts.gov.

1.6 ECF Login & Password

New users will receive login and password identification following registration. To ensure the integrity of the court's electronic case files, users must employ the highest standard of care in safeguarding the login and password. In no instance shall an attorney communicate this information to anyone unless the recipient is an employee of the attorney or law firm. Such communication may only be made in conjunction with caution to the recipient that the ECF login and password may only be used in exercise of the attorney's authority as an officer of this court and that it constitutes the filer's signature pursuant to Fed. R. Civ. P. 11 on all submissions made to the system. If an attorney has forgotten or misplaced their login and/or password, they should contact the court to have new ones issued.

1.7 PACER (Public Access to Court Electronic Records) Account

Non-court users must have a PACER Account. The U.S. Congress has given the Judicial Conference of the United States authority to impose fees for electronic access to case information. All registered agencies or individuals will be assessed a per page charge. Generally, a page is defined as 54 lines of data. There is a cap on the per page charge for electronic access to any single document. For a list of current charges, see www.pacer.gov.

When charges are accrued, a transaction receipt will appear before the document is viewed. This receipt will indicate the date and time of the transaction, the type or description of the transaction, the number of pages billed and the cost for that particular transaction. The user can click the "View document" button to proceed, or use the browser's *BACK* button to cancel the request.

The PACER Service Center sends quarterly statements to account holders. Fees are waived for any quarter in which the total fees are less than \$15. For information regarding billing and payment requirements and to register, contact the PACER Service Center by calling (800) 676-6856 or (210) 301-6440, or visit their website, www.pacer.gov. There is no fee to obtain the account.

SECTION 2.0 COURT CONTACTS, ADDRESSES, HELP DESK AND RESOURCES

2.1 Court Website

The Court's website is located at www.wied.uscourts.gov.

2.2 ECF User Manual

This manual provides information on the filing of documents, viewing of docket sheets, and performing queries. The Appendices contained in the manual are helpful resources for location of events and creating PDF documents.

2.3 Civil Case Opening Instructions and Tutorial

An on-line civil case opening tutorial and written instructions are available on the Court's website. The tutorial simulates the opening of a civil case, filing of documents and paying fees online. The tutorial takes approximately 30 minutes to complete.

2.4 ECF Help Desk

For further help and assistance regarding ECF, please contact the ECF Help Desk at (866) 438-5410. Hours of operation are 8:30 a.m. to 4:30 p.m., Monday through Friday.

2.5 PACER Service Center

Information regarding PACER can be found on their website, www.pacer.gov.

2.6 Adobe Acrobat

Website: www.adobe.com
Telephone: (888) 502-5275

SECTION 3.0 GETTING STARTED

3.1 Accessing ECF for the U.S. District Court – Eastern District of Wisconsin

In the location field of the browser, type the address of the Eastern District of Wisconsin's ECF site: <http://ecf.wied.uscourts.gov/> and press the *RETURN* or *ENTER* key. This page can also be accessed from the Court's website at www.wied.uscourts.gov. Bookmark the location.

3.2 Logging into the Database

(a) Secure Server Site Verification

The ECF server uses 256 bit encryption to provide a secure link for the transmission of sensitive case file documents. This is the same kind of technology that is used by financial institutions to prevent computer hackers from intercepting secret passwords and other sensitive information.

By clicking on the ECF hyperlink, the system will walk the user through a series of screens to verify the “Site Certificate,” a process by which the computer verifies the legitimacy of the secure server.

(b) The ECF Login and PACER Screen (Non-court Users)

To file electronically or maintain your user account, enter the system using your Eastern District of Wisconsin court-generated ECF login and password and click the redaction check-box. During your session, if you deviate from either electronically filing a document or maintaining your user account by clicking on the query or reports menus, the system will prompt for your PACER issued login and password.

If you wish to generate reports (i.e. view a docket sheet or query case information), enter the system using your PACER issued login and password. If you then need filing functionality or the ability to maintain your user account, select the UTILITIES menu from the main blue menu bar. From that menu, select ECF Login to enter your court issued ECF login and password. An explanation of the login procedures is displayed above the prompt boxes on the login screen.

The client code field is an optional field provided on the login screens for tracking purposes during PACER (report and query) functions. It can contain up to 32 characters. If a client code is entered for a transaction, that client code will be presented on the billing statement generated by the PACER Service Center. A client code will not appear on the bill unless it is entered at the time of a transaction. Due to the fact this code feature is optional, it must be enforced within a user’s office. Please note that this screen can be operated entirely with the keyboard. Use the *TAB* key to navigate between the fields and the buttons. The active button will have a faint dotted outline and the space bar will activate the outlined button.

3.3 Function Keys and Techniques

(a) “Back” and “Forward” Buttons

The *BACK* and *FORWARD* buttons advance or reverse one screen at a time. If an error has been made or the user needs to verify entries on a previous screen, click

the *BACK* button to the specific screen. The *FORWARD* button moves a screen ahead to return to the target screen. If a change has been made, use the *NEXT* key to progress.

(b) The “Tab” Key

ECF screens are navigated by using the mouse; however, the user may also use the *TAB* key and space bar to move through the data entry fields in most screens. Active or “focus” buttons have a faint dotted outline around them. A focused button may be activated by hitting the space bar. The user can also use the *SHIFT* key and the *TAB* key simultaneously to move back one field at a time.

(c) Menus and Event Selections

Navigating and posting events in ECF is by menu and event selections.

(d) Searching for the Most Appropriate Event

Users unfamiliar with the available event selections may select *SEARCH* from the blue CM/ECF menu bar at the top of the screen. From that menu, users may enter a keyword, click the *SEARCH* button and a list of every event containing that word will be displayed. Filing of the event may be done directly from the search results screen by clicking on the blue, highlighted event title.

(e) Selecting Multiple Parties or Events

Many ECF selections appear in alphabetical order in drop down lists. Multiple items may be selected from these lists by holding the *CONTROL* key and clicking on an additional item in the same drop down list. To select a range of items, hold the *SHIFT* key and click the top and bottom of the selection range.

Some screens will allow you to pick one or more events which will then be moved to a Selected Event field. Clicking any chosen event will remove it from the list.

(f) User-Supplied Text

Users may augment the system-supplied docket entry text by using the blank text boxes provided during the electronic filing process. Any user-supplied text will be displayed on the docket sheet in *italic type*.

(g) Committing a Transaction

An ECF transaction is not final until the last screen in the sequence (the Final Approval Screen) has been completed and the user has clicked on *NEXT*. The

Notice of Electronic Filing screen confirms that the filing has been committed to the system.

3.4 Submission of Documents

(a) Text Searchable Format

Filers must submit documents and attachments in text-searchable format whenever possible.

(b) Signature Line Format

The name of the ECF User under whose login and password the document is submitted must be typed in the space where the signature would otherwise appear and must be preceded by an “s/”.

(c) Exhibits and Attachments

The filer must add exhibits and attachments individually to the main document and include a description of the exhibits/attachments (e.g., Exhibit A – Deposition – John Doe, Exhibit B – Contract – Smith Co., etc). See Section 8.1(d).

(d) Conventionally Filed Documents

The following documents should be filed conventionally on paper:

- Any document submitted for filing in a sealed case.
- Highly Sensitive Documents. (See Procedures for the Filing, Service and Management of Highly Sensitive Documents - General Order 21-4).

3.5 Receiving Notices of Electronic Filing

Upon completion of an entry in ECF, an e-mail notification of that activity is automatically sent to the registered case participants and any secondary e-mail recipients added to those user accounts. Each e-mail notification message contains a hyperlink to the docket sheet for that case and a hyperlink to the .pdf file uploaded during the transaction. Each e-mail recipient receives a “free first look” at the electronically filed document. The system virtually marks or records the viewing of the docket sheet and document when the user inserts his PACER login following the click on the hyperlinks. Notification of activity in Social Security Appeals and of restricted documents in criminal and civil cases, however, is unique in that it is necessary for the system to identify the reader as counsel of record in the case before having authorization to view a document electronically. See below for additional information.

(a) Notification in Regular Civil Cases

Insert your PACER login and password when clicking on the hyperlinks within e-mail notifications. In this scenario, the system is virtually marking or recording that the recipient is receiving the “first free look.”

(b) Notification of “Paperless” Docket Entries

E-mail notifications of “paperless” docket entries will only contain a hyperlink to the docket sheet for the case and not to a document. There is no .pdf file uploaded during this court transaction and therefore the record of the entire docket entry is solely the docket text which is created and viewable on the Notice of Electronic Filing.

(c) Notification in Social Security Appeals and Restricted Documents in Criminal and Civil Cases

When an e-mail notification is received and the subject line indicates that it is for a Social Security Appeal, or when the docket text indicates that the document is restricted to case participants only, the recipient must open a second window and enter the ECF system using the attorney’s ECF login and password BEFORE clicking on any of the e-mail hyperlinks. The recipient may then go back to the e-mail notification window and click on the hyperlinks (using their PACER login and password) to view the electronically filed document.

SECTION 4.0 QUERY

4.1 Overview

This main menu option allows users to search for case information by name, case number, nature of suit, cause of action and date filed. Name fields are not case sensitive. Name searches can be for parties or attorneys. (See [Section 18.0 – Party Name Guidelines](#).)

4.2 Search Guidelines

The system requires a minimum of two characters (alphabetic or numeric) to begin a name search. A wildcard (*) symbol may be placed either before or after the two known characters. Entry of the wildcard character before the two known characters will generate a very broad search result. The system will view the two known characters as a string and display any names which contain the string.

Alternatively, use of the wildcard symbol following the two known characters will generate a report containing only those names which begin with the two known characters. The addition of known characters will further limit the search results. If more than one name meets the criteria, the user may select one name from the list and the list of cases in which that name appears will be generated.

Query allows the user to view a variety of reports for individual cases, such as docket report, filers, or associated cases. Some options, such as “related transactions,” can be further refined with additional selection criteria.

SECTION 5.0 REPORTS

5.1 Overview

The following reports are available on the ECF: Docket Sheet, Civil Cases, Criminal Cases, and Judgment Index.

- If a selection box displays more than once choice, multiple items may be selected.
- If a selection list includes a blank item, it can be used to select “all.”
- If multiple selection criteria is specified, i.e. judge and office, only those items for which both are true will be retrieved.

5.2 Selected Reports

(a) Docket Sheet

The Docket Sheet Report displays the caption, parties, attorneys and docket entries for a single case. Docket entries can be displayed by date and/or document range.

ECF participants may view the Notices of Electronic Filing (participants must be in the system as both a PACER and an ECF user), by selecting **Docket Sheet** and checking the box by **Include links to Notice of Electronic Filing**. The icon next to the document number on the docket sheet will display the Notice of Electronic Filing.

(b) Civil Cases

The Civil Cases Report displays a summary list of cases which can be selected by using the following search criteria: case type, judge, nature of suit, cause of action, case flags, open/closed, and date range of filed or closed.

(c) Criminal Cases

The Criminal Case Report displays a summary list of cases which can be selected by using the following search criteria: case type, judge, case flags, pending and/or terminated defendants, and date range of filed or closed.

(d) Judgment Index

The Judgment Index Report displays judgments entered in civil cases using the following search criteria: case number, party name and date range the judgment was entered.

SECTION 6.0 UTILITIES

6.1 Overview

Utilities allows the user access to Maintain Your Account, View Your Transaction Log, Change Your PACER Login, Verify a Document, and also has a link to the Mailings menu.

6.2 Maintain Your Account

Users access this link to update their e-mail addresses and notification preferences.

1. Maintain User Account

This screen provides access to Name, Office, Address, Phone and Fax fields. Modifications can only be made to the Name, Phone and Fax fields. The new values will be recorded for ALL cases to which the user is linked. Changes to the Office and Address fields are performed by the Clerk's Office. Notice of changes to an office and/or address should be electronically filed into a pending case or, if there is no pending case, sent in paper format to the Clerk's Office.

2. E-Mail Information

In ECF, notification is accomplished by electronic mail. Whenever a document is filed in a case, notification of that filing will be e-mailed to the filer, all attorney participants, and the court. An attorney is responsible for configuring and maintaining their automatic e-mail notification upon receiving their ECF login and password. To configure Automatic E-Mail Notifications, choose "Maintain Your Account" from the "Utilities" menu and then select "E-mail information."

- **Primary e-mail address**

Registered users will see their e-mail address. Clicking on the e-mail address will bring up the configuration options.

- **Should this e-mail receive notices**

The system defaults to notices sent to the primary e-mail address. The attorney may specify additional addresses by clicking on the "add a new e-mail address" link under the heading "secondary e-mail addresses." Attorneys may elect to have the notices go to either their primary or secondary addresses or to both. An attorney may want to change the notice option to "no" when he or she is out

of the office for an extended period so long as a secondary address will still be receiving notices.

- **How should notices be sent**

Selecting “per filing” will result in the attorney receiving an immediate email notice of electronic filings. Selecting the “summary report” option will generate a once daily e-mail displaying the docket event and the document number (including the hyperlink) for each document filed in the previous 24 hours.

- **Receiving announcements from the court**

On occasion, the court notifies registered users of important upgrades to the CM/ECF system and of changes made to the local rules and filing policies and procedures using their current e-mail address.

- **Case-specific options**

Attorneys may choose to receive notifications in cases in which they are not a participant by adding the case number(s) into the box. Notices will be sent per filing unless the case is changed to notice as a summary report.

- **Show all cases for this e-mail address**

Clicking the button displays a list of cases for which the attorney is currently receiving notices.

- **Saving changes**

Whenever a change is made on the e-mail information screen, the user must click the “Return to Person Information Screen” button **and then click “Submit” in order for the changes to be saved.**

3. More User Information – Change Password

This screen allows the user to modify the court generated login and password. Passwords must be a minimum of 8 characters, have upper and lower-case letters and must include at least one digit or special character.

6.3 View Your Transaction Log

This feature allows users to generate a report showing the user’s activity in the system within a specified date range.

6.4 Change Your PACER Login

This is a link which takes the user to the PACER Login screen.

6.5 Mailings

Users can access mailing and noticing data for a specific case.

1. Mailing Info for a Case

Displays a list of those who receive e-mail notices and those who require manual noticing.

2. Mailing Labels by Case

Displays name and address data in label format for a single case.

SECTION 7.0 OPENING A CASE – CIVIL

The filing of all initial documents in a civil case will be made electronically, including the complaint or petition, the civil cover sheet, summons and the disclosure statement. Filing fees are paid electronically during the filing of the initiating document.

An on-line civil case opening tutorial and written instructions are available on the Court's website. The tutorial simulates the opening of a civil case, filing of documents and paying fees online. The tutorial takes approximately 30 minutes to complete.

SECTION 8.0 FILING PROCEDURES IN GENERAL – CIVIL

8.1 Filing Procedures

All documents must be converted from their original word processing format to PDF format **before** they can be posted to the ECF system.

(a) Selecting a Case

Type in the case number. Cases should be entered in the YEAR-NUMBER (yy-####) format. Always include a hyphen between the year and number. If the case number has not been entered correctly, an error screen will appear.

Note: A hyperlink to the docket sheet is available on subsequent screens. At any time during the document filing process, a user may click on the underlined case number denoting a hyperlink to the docket sheet.

(b) Select the Party Filer and Adding Parties

Select the party(s) filing the document by highlighting the individual name(s). To highlight multiple parties, hold the *CONTROL* key down while clicking on the party names.

New parties can be added on this screen by choosing the “New Filer” button. **Thoroughly search the database for existing party names before adding new names.** (See [Section 18.0 – Party Name Guidelines](#).) To perform the search, enter the first few letters of the party’s last name into the search window and hit “Search.” A window will display all names which match the entered search criteria. Search criteria are not case sensitive.

If the party exists, highlight the name and hit “Select Party.” Do not duplicate exact party names in the database. Only one name may be selected at a time in this window. **Do not enter address information, as the court does not maintain personal address records for represented parties.** Select the party’s Role (plaintiff, defendant, etc.), add Party Text, if needed, (i.e. *a Delaware Corporation*) and hit “Add Party.”

If the party name does not appear on the drop down list, select “Create New Party.” Enter the party name following [Section 18.0 – Party Name Guidelines](#) and proceed as above.

(c) Select Filed Against Party(s)

If prompted, select the party(s) the document is filed against by either highlighting the individual name(s) or by Select a Group, if the document is against “All Defendants” or “All Plaintiffs.”

New parties can be added on this screen by choosing the “New Party” button and following the procedures outlined above in [Section 8.1\(b\) – Select Party Filer and Adding Parties](#).

(d) Selecting the PDF File of the Main Document and Attachments

Search for the main document by selecting the “Browse” button under the title “Main Document;” and click on the document to add. The name of the file will appear next to the “Browse” button confirming the document selected.

If there are attachments (*i.e.* exhibits or attachments to the pleadings), add them by selecting the “Browse” button under the title “Attachments” to search for each file. The name of the selected file will appear next to the “Browse” button, confirming the document selected. Every attachment requires a selection from the category drop-down list OR a typed description.

The **category drop-down list** is appropriate for documents that typically require no additional description. Examples include a civil cover sheet, text of proposed order and certificate of service. If your attachment falls into one of the listed categories, make a selection from the drop-down list. When finished select “Next” to complete the docket entry. Examples of attachment descriptions selected from the category drop-down list:

(Attachments: # [1](#) Civil Cover Sheet, # [2](#) Summons, # [3](#) Certificate of Service)

Filers must use the **description text box** for exhibits or other documents not found in the category drop-down box. The filer must type a brief description of each attachment in the text box. If the description text is the same for one or more of the attachments, include the date or other defining characteristic to distinguish one attachment from another (See Exhibits 1 and 2, and Exhibits C and D, below). Examples of description text:

(Attachments: # [1](#) Exhibit 1 – Smith Deposition 7/20/18, # [2](#) Exhibit 2 – Smith Deposition 4/25/19, # [3](#) Exhibit 3 – Expert Report – Johnson, # [4](#) Exhibit 4 – Medical Records – Jones (Restricted), # [5](#) Exhibit 5 – Medical Records – Jones (Redacted), # [6](#) Exhibit 6 – Taylor Deposition)

(Attachments: # [1](#) Exhibit A – Order from Western District of Wisconsin, # [2](#) Exhibit B – Decision from USCA-7th Circuit, # [3](#) Exhibit C – Contract Rider – Fire Insurance, # [4](#) Exhibit D – Contract Rider – Indemnity Alternatives)

Repeat the sequence for each document attached. When finished, select “Next” and complete the docket entry.

(e) Modifying the Docket Text

Add any additional descriptive text which should appear in the docket entry in the blank box or boxes. Any user-supplied text will appear in *italic type* on the docket sheet.

(f) Final Approval Screen

This is the last opportunity for the user to review the entries. If there are errors, use the browser’s *BACK* button to access the appropriate screen. Select “Next” when the transaction is complete and ready to transmit, or the user may abort the transaction by clicking on any of the menu selections visible across the top of the screen.

(g) Notice of Electronic Filing

This screen will affirm that the document has been posted to the docket. The electronic document stamp is generated from the contents of the PDF file submitted and is proof of filing. This screen displays which attorneys have been notified of the filing electronically and which attorneys or litigants have not received electronic notification from the system. Those parties not registered to receive electronic notification must be served with paper copies. Although this screen maybe printed, the Notice of Electronic Filing is saved by the system and may be viewed through the Docket Sheet Report at any time. (See [Section 5.2](#))

SECTION 9.0 FILING AN AMENDED COMPLAINT – CIVIL

Filing Procedures

Select CIVIL from the main menu bar. From the **Initial Pleadings and Service** menu, choose Complaint and Other Initiating Documents. Select Amended Complaint from the drop down menu.

See [Section 8.0 Filing Procedures in General – Civil](#) for directions on selecting the case, selecting the filer, adding new parties, selecting the PDF file, modifying docket text, the final approval screen and notice of electronic filing.

Update Jury Demand

If the jury demand differs from the originating Complaint, update the jury demand using the drop down menu.

SECTION 10.0 SERVICE OF PROCESS – CIVIL

Filing Procedures

From the **Initial Pleadings and Service** menu, select Service of Process. Choose the appropriate event from the drop down menu.

See [Section 8.0 Filing Procedures in General – Civil](#) for directions on selecting the case, selecting the filer, adding new parties, selecting the PDF file, modifying the docket text, the final approval screen and notice of electronic filing.

Select the Party Served

Select the party who was served by highlighting the individual name.

Enter Date Served

Enter the date service was accomplished on the party.

SECTION 11.0 ANSWERS – CIVIL

11.1 Filing Procedures

There are two menus for Answers under the **Initial Pleadings and Service** menu:

- Answers to Complaints
- Other Answers
-

See [Section 8.0 Filing Procedures in General – Civil](#) for directions on selecting the case, selecting a filer, adding new parties, selecting the PDF file, modifying the docket text, the final approval screen and notice of electronic filing.

11.2 Answers to Complaints

(a) Unanswered Complaint Screen

Check the box next to each complaint being answered by this filing.

(b) Counterclaim, Cross-Claim, Third-Party Complaint Screen

If the Answer to the Complaint contains a Counterclaim, Cross-Claim or Third-Party Complaint, check “Yes.”

Checking these boxes will create additional screens for selection of the party against whom the counterclaim, cross-claim or third-party complaint is being filed.

New parties can be added on this screen by choosing the “New Party” button and following the procedures outlined in [Section 8.1\(b\) Select the Party Filer and Adding Parties](#).

(c) Jury Demand

Update jury demand information, if necessary.

11.3 Other Answers

This category contains the events for Answers other than the first answer by a defendant to the complaint. See [Appendix A](#) for the complete list of these events.

SECTION 12.0 MOTIONS AND RELATED FILINGS – CIVIL

12.1 Filing Procedures

Select Motions under **Motions and Related Filings** to bring up a list of motion types. Choose the motion type that is most specific to the document you are filing. (See [Appendix A](#) for a complete list of motion types.) Motion type “miscellaneous relief” or “order” may be used *only* if you do not find a specific motion type which matches your document.

Multiple motion types may be selected simply by highlighting the appropriate relief. Once highlighted, each motion relief will move into the Selected Events box. For example, if you are filing a Motion to Dismiss, or in the alternative, Motion to Amend, you should select **both** Dismiss and Amend/Correct. If you need to remove a selected relief, simply click the item to be removed.

See [Section 8.0 Filing Procedures in General – Civil](#) for directions on selecting the case, selecting the filer, adding new parties, selecting the PDF file, modifying the docket text, the final approval screen and notice of electronic filing.

12.2 Briefs, Responses and Replies

Events in this category include both pleadings that are related to motions and pleadings which are not. (See [Appendix A](#) for a complete list of **Briefs, Responses and Replies**.)

Pleadings such as Affidavits, Proposed Findings of Fact, and other documents filed in support of briefs are **NOT** found in this category and should **NOT** be filed as attachments to your brief, response or reply. To file an Affidavit, Proposed Findings of Fact, or other similar document, select the appropriate event from Other Documents under **Other Filings**. (See [Appendix A](#) for a complete list of **Other Filings**.)

(a) Brief in Support, Brief in Opposition, Reply Brief in Support of Motion

When electronically filing these documents, you will see the message:

Select the appropriate event(s) to which your event relates:

Below the message will be a list of all pending motions in the case. Check the box next to the related motion.

(b) Brief, Reply, Response (Non-Motion)

When electronically filing these documents, you will see the message:

Should the document you are filing link to another document in this case?

If you want to link your document to another document, check the box. Clicking “Next” will display a list of every document that has been filed in the case. You may narrow the documents displayed by typing in specific dates between which you know the related document was filed, or by typing in the specific document number(s) you know relate to the document you are filing.

Although displayed, do **NOT** link your document to a motion. If you are filing a document that is related to a motion, go back and select one of the events that specifically states it is related to a motion.

(c) Objection to Report and Recommendations

When electronically filing this document, you will see the message:

Select the appropriate event(s) to which your event relates:

Below the message will be the Report and Recommendation with the box already check. Select “Next.”

SECTION 13.0 OTHER FILINGS – CIVIL

Filing Procedures

Other Filings contains events for the following categories: Discovery Documents, Notices, Trial Documents, Appeal Documents and Other Documents. (See [Appendix A](#) for a complete list of **Other Filings**.)

See [Section 8.0 Filing Procedures in General – Civil](#) for directions on selecting the case, selecting the filer, adding new parties, selecting the PDF file, modifying the docket text, the final approval screen and notice of electronic filing.

SECTION 14.0 OPENING A CASE – CRIMINAL

The filing of all initial documents in a criminal case, such as the indictment or information, warrant for arrest or summons, will be accomplished in the traditional manner on paper rather than electronically. The Clerk’s Office staff will open the case in ECF, add the party information, and upload the initial documents for inclusion into the electronic file. All future pleadings and documents required to be filed with the court will be maintained in electronic format.

SECTION 15.0 FILING PROCEDURES IN GENERAL – CRIMINAL

Filing Procedures

All documents must be converted from their original word processing format to PDF format **before** they can be posted to the ECF system. Select “Next” at any time to proceed to the next screen.

(a) Case Selection

Type in the case number. Cases should be entered in the YEAR-NUMBER (yy-####) format. Always include a hyphen between the year and number. If the case number has not been entered correctly, an error screen will appear.

Note: A hyperlink to the docket sheet is available on subsequent screens. At any time during the document filing process, a user may click on the underlined case number denoting a hyperlink to the docket sheet.

(b) Cases with Multiple Defendants

Choose the case listed for the defendant(s) filing the pleading. If the filer is the USA, then select the case for which defendant(s) the pleading pertains. Do **NOT** select the main case unless the pleading relates to **EVERY** defendant in the case.

(c) Select the Party Filer

Choose the party(s) filing the motion by highlighting the name(s).

(d) Selecting the PDF File of the Main Document and Attachments

This screen permits the user to upload the PDF file to the ECF System by clicking on the “Browse” button which activates the user’s browser dialog box. The browser dialog box allows retrieval of the PDF file to upload. The user may have to work through several directories to locate where the PDF file is stored. That directory will become the default directory during the remainder of the active session. Select “All Files” in the “Files of type:” box and search for the PDF document to upload. Highlight the file and hit “Open.” The user may also verify the actual document selected by highlighting it, right clicking, and selecting “Open” from the drop down menu. Adobe Reader will launch and the file will be displayed. The full path name of the file will appear in the PDF file upload box. If there are no attachments to the document, select “Next.” If there are attachments (i.e. exhibits or attachments to the pleading), you may add them by clicking the “Browse” button under the title “Attachments,” to search for that file. After selecting an attachment, another selection box will automatically appear so that you may continue to add attachments if necessary. Attachments should be added individually, for example, Exhibit A, Exhibit B, etc. and not grouped together such as Exhibits A-M.

Select the category of attachment by selecting from the drop down menu below “Category.” To more fully describe the attachment, click in the “Description” box and type in a *brief* description. Information which is entered in the prompt box will be pulled into the docket text. If no category fits the type of attachment you are adding, you do not need to select one; however, you must then fill in the description box. If there are additional attachments, repeat this sequence for each one. When finished, select “Next.”

(e) Modifying the Docket Text

Add any additional descriptive text which should appear in the docket entry in the blank box or boxes. Any user-supplied text will appear in *italic type* on the docket sheet.

(f) Final Approval Screen

This is the last opportunity for the user to review the entries. If there are errors, use your browser's *BACK* button to access the appropriate screen. Select "Next" when the transaction is complete and ready to transmit, or the user may abort the transaction by clicking on any of the menu selections visible across the top of the screen.

(g) Notice of Electronic Filing

This screen will affirm that the document has been posted to the docket. The electronic document stamp is generated from the contents of the PDF file submitted and is proof of filing. This screen also displays which attorneys have been notified electronically of the submission and which attorneys or litigants have not received electronic notification. Those parties not registered to receive electronic notification must be served with paper copies. Although this screen may be printed, it is saved by the system and may be viewed through the Docket Sheet Report at any time. (See [Section 5.2](#))

SECTION 16.0 MOTIONS AND RELATED FILINGS – CRIMINAL

16.1 Filing Procedures

Select Motions under **Motions and Related Filings** to bring up a list of motion types. Choose the motion type that is most specific to the document you are filing. (See [Appendix A](#) for a complete list of motion types.) Motion type "miscellaneous relief" or "order" may be used *only* if you do not find a specific motion type which matches your document.

Multiple motion types may be selected simply by highlighting the appropriate relief. Once highlighted, each motion relief will move into the Selected Events box. For example, if you are filing a Motion to Dismiss, or in the alternative, Motion to Amend, you should select **both** Dismiss and Amend/Correct. If you need to remove a selected relief, simply click on the item to be removed.

See [Section 15.0 Filing Procedures in General – Criminal](#) for direction on selecting the case, selecting the filer, selecting the PDF file, modifying docket text, the final approval screen and notice of electronic filing.

16.2 Briefs, Responses and Replies

Events in this category include both pleadings that are related to motions and pleadings which are not. (See [Appendix B](#) for a complete list of **Responses and Replies**.)

Pleadings such as Affidavits and other documents filed in support of briefs are **NOT** found in this category and should **NOT** be filed as attachments to your brief, reply or response. To file an Affidavit or other similar document, select the appropriate event from **Other Documents** under **Other Filings**. (See [Appendix B](#) for a complete list of **Other Filings**.)

See [Section 15.0 Filing Procedures in General – Criminal](#) for directions on selecting a case, selecting a filer, selecting the PDF file, modifying docket text, the final approval screen and notice of electronic filing.

(a) Memorandum in Support, Brief in Opposition, Reply to Response in Support of Motions

When electronically filing these documents, you will see the message:

Select the appropriate event(s) to which your event relates:

Below the message will be a list of all pending motions in the case. Check the box next to the related motion.

(b) Brief, Reply, Response (Non-Motion)

When electronically filing these documents, you will see the message:

Should the document you are filing link to another document in this case?

If you want to link your document to another document, check the box. Clicking “Next” will display a list of every document that has been filed in the case. You may narrow the documents displayed by typing in specific dates between which you know the related document was filed, or by typing specific document numbers you know relate to the document you are filing.

Although displayed, do **NOT** link your document to a motion. If you are filing a document that is related to a motion, go back and select one of the events that specifically states it is related to a motion.

(c) Objection to Report and Recommendations

When electronically filing this document, you will see the message:

Select the appropriate event(s) to which your event relates:

Below the message will be the Report and Recommendations with the box already checked. Select “Next.”

NOTE: This applies to the **business names *only***.

6. If the company name is U.S. Furnace Co, use US Furnace Co in the Last Name. (U.S. is the official name of the company, not United States.)
7. If the business name uses “and,” use and. If the business name uses “&,” use &.

Example: M&I Bank
Junge and Associates Inc

8. Use Party Text for descriptive parts of a business name.

Example: The General Electric Supply Company, an Arizona Corporation

Last Name: The General Electric Supply Company

APPENDIX D:

Portable Document Format (PDF) Guidelines

The United States District Court – Eastern District of Wisconsin specifies that documents filed with the Court electronically must be in PDF format. PDF is specified because the files can be created and viewed using many different computing platforms (UNIX, Linux, Windows, and Macintosh). The PDF format was created by Adobe Systems Incorporated®. The format was opened by Adobe to allow third party software developers to use Adobe technology in their products (license reserved).

Each file submitted to the Court electronically must be less than ten megabytes in size. Multiple PDF files may be attached to a single Electronic Case Filing pleading. Brevity is encouraged to minimize the file storage costs to the Court, and reduce the time needed to download a PDF document over a slow internet connection.

Do not use the password, encryption or digital signature features of your PDF writing software. File security is handled by your browser (typically Internet Explorer® or Mozilla Firefox®) and the Courts ECF system. An “electronic signature” is a special code which is created by the software when you log into the ECF system using your login name and password. This code verifies that you are the author of the document. You may choose to include an image of your signature as a stylistic feature of your documents. An image of your signature provides **no** evidence of the authenticity of the documents. (Digitized images can be reproduced perfectly, ad infinitum, by anyone with the appropriate software.) Do be sure to include the “s/” in your signature line, indicating that it is an electronic submission.

There are three different ways of creating PDF files; extraction with software using default fonts, extraction with software using embedded fonts, and scanning.

PDF Files Extracted with Software Using Default Fonts

We recommend extracting the PDF file from your original document using software and default fonts whenever possible. Common applications which will create this type of PDF are Adobe Acrobat® Standard, Adobe Acrobat® Pro, Corel Wordperfect® 9 through X6, and Microsoft Word® 2010 among others. In this method, the font is specified in the file, and the content is included as text characters. Images can also be included within this type of PDF.

When a person downloads an extracted native-font PDF, his/her PDF reader checks their computer for a similar font. The document is then reassembled by the PDF reading software.

This method results in the smallest files, which can be quickly downloaded. The quality of the printed output is excellent. An automated search can be conducted on the document and its content can be copied and pasted for inclusion in related filings.

The content of this type of PDF file does not change. There may be changes in line breaks and pagination because of small differences between the author’s computer fonts and the reader’s computer fonts. The best results are achieved if the author uses common proportional serif fonts.

This document was created using the Times New Roman 12 point font. Other recommended fonts are Georgia, Palatino Linotype, and MS Serif.

PDF Files Extracted with Software Using Embedded Fonts

It is possible to create PDF files which include a detailed description of the font to be used. This method gives the most accurate representation of the original document if an unusual font is used (exotic fonts are discouraged). Adobe Acrobat Distiller® can produce this type of file. This document can be electronically searched, and the contents can be copied and pasted into other documents. Images can also be embedded in this file type.

The embedded font description can greatly affect the size of a file. In a short document, the font description can be several times larger than the text. As a general rule, avoid creating PDF documents with embedded fonts.

Scanned PDF Documents

Since all documents submitted to the Court do not originate with the litigants, the Court does accept PDF files created by scanning a hard copy original. The recommended scanner settings are at least 300 x 300 dots per inch (“DPI”) and black and white mode. (Avoid color and grayscale scanning whenever possible.)

This method creates PDF files where the entire contents are treated as a graphic image. The linefeeds and pagination are consistent because the file is analogous to a facsimile or photocopy.

A scanned PDF document generally creates the largest file sizes of the three methods. The image quality tends to be grainy and includes any dust or marks which are on the scanner or original document. The computer treats this image as a pattern of dots and not as discrete alphabetic characters. This type of image cannot be readily searched or indexed by electronic means. The contents of a scanned PDF cannot be directly copied and pasted into other documents. The Court recommends that you avoid scanning document which originate with you. The direct software extraction methods usually provide better results.

Adobe Systems offers a free PDF reader, Adobe Acrobat Reader®, which can be downloaded at www.adobe.com.

The Court does not endorse any brand of PDF writing software. To locate PDF writing software, go to your favorite web search site and enter “PDF editor” or “Portable Document Format editor.”
